

Consonant Blends Pairs Game

Level 4

2-4 players

- Place all the cards face down.
- One child chooses two cards and says aloud the consonant blend or word containing a blend.
- If the cards are a pair and match, they keep those cards and they get another turn.
- If the cards do not match, the next child has their turn.
- Play the game until all the cards have been matched.
- The winner is the child who has found the most pairs.

Challenge: can the children match any cards that have the same consonant blend? For example: street, best and handstand.
