

5 Continue the pattern.

$\frac{1}{10}$	0.2	3 tenths	$\frac{4}{10}$	0.5
6 tenths				

6 What decimal is each arrow pointing to?

A = B = C =

8 Complete the statements.

a) $0.2 > \frac{\square}{10}$

c) $\square$ tenths = 0.7

b) $0.8 < \frac{\square}{10}$

d) $\square = \frac{12}{10}$

Is there more than one answer for each?

9 Aisha places 6 counters onto this place value chart.

List all the possible numbers she could represent.

7 Estimate the position of the decimals on the number lines.

a)

b)

c)

True or False?

Dora

10 cm is one tenth of 1 metre

10 cm is 0.1 metres.

Amir

Explain your answer.

Place the decimals and fractions on the number line.

0.7 $\frac{3}{10}$ $\frac{1}{10}$ 0.9 $\frac{10}{10}$
