

Willy Wonka's Inventing Room

In Charlie and the Chocolate Factory, Willy Wonka shows the children some amazing inventions!

- **The Everlasting Gobstoppers** lasted forever, which was helpful for children with little pocket money.
- **The Chewing Gum Meal** tasted of all three courses, but made Violet swell up!
- **The Fizzy Lifting Drinks** were so light that they made the drinker float up to the ceiling.
- **The Lickable Wallpaper** - you could lick it and taste whichever food was printed on it.

Create your own food or sweet invention below. Include its ingredients and instructions for creating it.
