23/2/2021 TOPIC/DT/ART

LO To name and locate significant volcanoes using latitude and longitude.

Read Latitude and Longitude Information

Plot volcanoes on map.

LO To create a 3-D form using malleable or rigid materials, or a combination of materials.

Construct a 3-D model volcano. Could you make it light up, explode or rumble and shake?

What type of volcano will you make? What shape should it be? Will your volcano move or light up? How?

24/2/2021 TOPIC

LO To name and locate significant volcanoes and explain why they are important.

Read Ring of Fire Information and sort 8 statements into true or false.

LO To describe how a significant geographical activity has changed a landscape in the short or long term.

When volcanoes erupt, they emit gases, lava and ash. Volcanic eruptions can destroy habitats, homes and businesses and can change the landscape. Volcanologists, scientists who study the activity of volcanoes, research materials to find out how a landscape changes after a volcanic eruption.

Choose a volcano and complete the Volcanologist Report

25/2/2021 SCIENCE

LO To identify naturally occurring rocks and to group rocks according to their characteristics

Read the information about natural and man-made rocks (1-7)

Sort the materials into natural and man-made

Read the information about sorting (9-11)

Sort the rocks in any way, label each group

26/2/2021 DEFINITIONS

Find out the meaning of some of the geographical terms (FRIDAY definitions)

26/2/2021 FRENCH – MONTHS OF THE YEAR

Listen to the pronunciation in French <https://ielanguages.com/mp3s/months.mp3>

Read the PowerPoint, solve the anagrams on screen, match the snowball months and find the words in a wordsearch.

P.E. try to do some exercise every day
