

6/5/21 LO Order unit fractions and fractions with the same denominators

2 Write the fractions in order, starting with the smallest.

3 a) Shade the bar models to represent the fractions.

b) What do you notice?

4 Write the fractions in order, starting with the greatest.

6 a) Complete the equivalent fractions.

$$\frac{3}{5} = \frac{6}{\square} \qquad \frac{2}{9} = \frac{6}{\square} \qquad \frac{1}{7} = \frac{6}{\square}$$

b) Write the fractions in order, starting with the greatest.

5 Tommy and Dora are ordering fractions.

Tommy

I cannot order these fractions because the numerators and denominators are different.

I think I can use equivalent fractions to help me.

Dora

Who do you agree with? _____
