

Monday 1st March 2021

Make notes under 2 headings

- 395 million years ago (pages 4 and 5 of the book)
- 390 million years ago (pages 6 and 7 of the book)

Put down what has happened to the pebble and what is changing on Earth (in terms of its physical development and its evolution of life)

Tuesday 2nd March 2021

Make notes under the next heading

- 375 million years ago (pages 8 and 9 of the book)

Put down what has happened to the pebble and what is changing on Earth (in terms of its physical development and its evolution of life)

Extra – Have a go at reading part of pages 4-9 as if we were doing Readers Theatre.

Will you include movements or actions?

Will you create any sound effects?

What tone and intonation will bring the text to life?
