

## St. Patrick's Day (17 March)

Saint Patrick was the patron saint of Ireland. He was born in Roman Britain during the late 4th century. At the age of 16, he was kidnapped and taken to Ireland as a slave. Luckily, he escaped and returned later to spread Christian messages across Ireland. Like many other symbols, the leprechaun has become a symbol of Ireland and therefore often features in St. Patrick's Day celebrations.

**Solve each question below. Then use the key to find the answer to the joke. Letters can be used more than once.**

1. Which is longer, 24mm, 240mm or 2.4m?

2.  $9\text{m } 82\text{cm} - 9\text{m } 10\text{cm} =$

3.  $8\text{cm} = \_\_\text{mm}$

4. A square has side of 7cm. What is the perimeter?
