LO : To write a poem giving Ug advice

Read P28

*What are the feelings and thoughts of adult Ug?
Has he managed to fulfil his promise of being an inventor?
Is there anything that you would say to him if you could?*

Ug wonders whether things are going to get better.

What advice do you think Ug needed to achieve his goals?

Draft your own poem around the theme.

Read it aloud, then think about any parts you aren't sure are working or make suggestions to improve the writing.

Redraft any parts of your poem.

Think about how the poem could be best presented.

How will it look on the page?

What form will it take?

How will you use line breaks, spacing on the page to enhance the meaning or emotions behind your poem?

Will you hand write it?

Will you publish using ICT?

Will you make any specific decisions about the way certain words look or are placed on the page?

Will you illustrate the poem?

If so, how will the words and illustration sit and work together?

Make a final draft.

Could you read some lines out in this afternoon's review Teams meeting?
