

YEAR 3 HOMEWORK - SCRUMDIDDLYUMPTIOUS!

What will you choose to do?

BREAD

Sample different types of bread. Describe how they vary in taste and texture using a variety of adjectives. Record information of bread products in a spreadsheet such as names, weights, prices, type and special ingredients. With an adult, bake bread adding extra flavourings such as herbs, cheese or dried fruits to change the taste

BAKING

Take part in baking activities that need mathematical skills to weigh and measure accurately. Follow simple recipes, planning the ingredients and tools needed. Describe the changes that take place during the cooking process. Take photographs of what you do and write the recipes that you make.

CELEBRATION

Make an information booklet about a celebration or festival that involves eating a special type of food. Why not try making some?

FAIR TRADE

Find out what fair trade goods are and why people buy them rather than non-fair trade products. Present your findings.

SMOOTHIES

What flavour smoothies do you like best? Find out what ingredients they use. Read smoothie recipes and create your own. List the ingredients and write the recipe. Follow this to make your own smoothie. Give it a name, will it be nonsense like Willy Wonka's products? Design a persuasive label for it.
