

Paper Bird

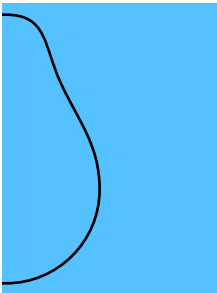

You will need:-

- Coloured paper or card
- Glue
- Scissors

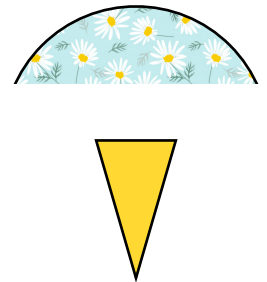

Instructions

Draw a simple bird shape on to folded card.

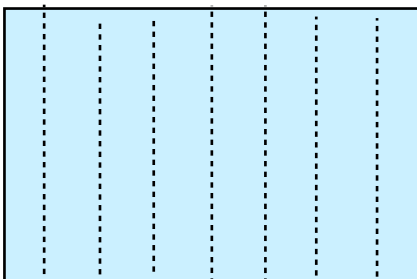

Then cut it out and glue both sides together.

Cut out a triangle beak and stick on. Draw on an eye or make an eye using white paper. Draw on a breast or cut out a breast with a different colour or pattern.

Wings and tail.

Get a sheet of paper and fold it in the same way as we make fans at school. Fold it one way, turn it over, fold it the other way, turn it over and continue until you reach the end of the sheet of paper. Get another piece of paper and do the same for a tail.

Ask an adult for help

Carefully cut a line in the top ready to slot in the wings.

The wings are then fed through the slot.

The tail can either be glued (or stapled) on.
