

Toilet Roll Flower

You will need:-

- Toilet roll tube
- Green paint
- Green card or paper (or your own choice)
- bright card (for flower)
- Glue
- Scissors

Instructions

First cover the toilet roll with green paint and leave to dry. Meanwhile cut out two leaves from green card or paper. Then cut out a flower shape from bright card or paper and draw or attach a centre. Once the toilet roll is dry you can attach the leaves with glue. To attach the flower make two cuts in the top of the toilet roll and slide it into position.

Tips

Your flower can be any colour you like so don't worry if you don't have coloured paper. If you have white paper, you could colour the flower or leaves it in with felt tips or pencils before cutting them out. An old button or Pom Pom would make a great centre for your flower.

The photo is just a guide, your flower is yours, be creative and have fun!
