

Toilet Roll House

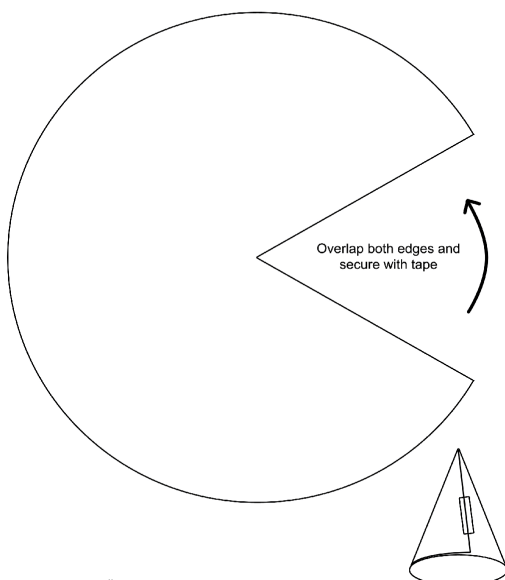

You will need:-

- Toilet roll tube
- Card or paper (or your own choice)
- Black pen
- Glue or tape
- Scissors

Instructions

First, cover the toilet roll in your chosen paper, you could make your own lovely paper design using felt tips or pencils. Stick it down with glue. Then use scissors to cut out small windows and doors from different coloured paper and stick down. Using a black pen, draw on outline details.

Cone

To make the cone roof, first draw around the rim of a mug or beaker (about 10cm diameter) and cut out the circle for the cone roof. Cut out a small slice using scissors and fold into a cone secure with glue or tape. Attach a decoration.

Tips

There is a good tutorial on making a paper cone on www.wikihow.com
You could use sequins or glitter glue to add more decoration.
