

Toilet Roll Owl

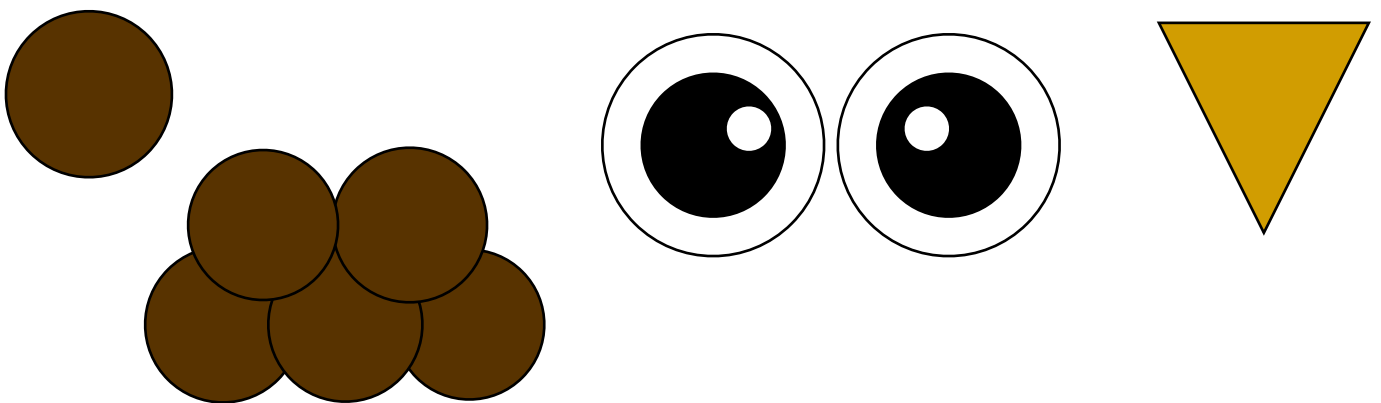

You will need:-

- Toilet roll tube
- White, brown, beige card or paper (or your own choice)
- Black pen
- Glue
- Scissors

Instructions

You can either paint the toilet roll and leave it to dry or leave it plain and get making!

First, Squash down the top of toilet roll tube in the middle of one end to create the owls ears. Then use scissors to cut out small circles and stick down on to the tube for the owls feathers. Next, cut out a triangle for his beak and stick it down. Cut out two large circles for the owls eyes and using a black pen draw on black centres leaving a white highlight, then stick down. Leave to dry.

Tips

Your owl can be any colour you like so don't worry if you don't have brown paper. If you have white paper, you could colour it in with felt tips or pencils first. Newspaper or patterned paper would also look good.

The photo is just a guide, your owl is yours, be creative and have fun! What will you call him?
