

Toilet Roll Butterfly

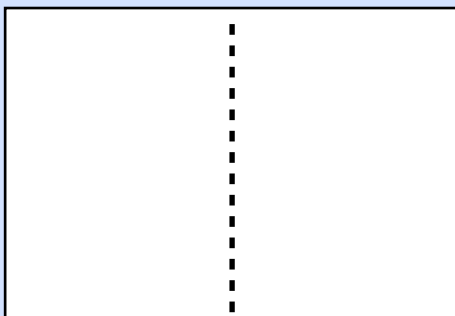

You will need:-

- Toilet roll tube
- Paint
- Bright card
- Glue and tape
- Scissors
- Old buttons or sequins
- Pipe cleaners

Instructions

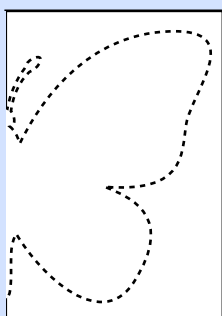

First cover the toilet roll with bright paint and leave to dry. Meanwhile cut out the butterfly wings from bright card or paper. You could draw your own or I've attached a template. Then decorate with old buttons or sequins or draw your own lovely designs. Try to keep it symmetrical (same on both sides as we have been learning in maths). Once the toilet roll is dry you can attach the wings with glue. To make the antenna use pipe cleaners or card strips and attach to the top of the inside of the toilet roll with tape (or glue). Attach two goggle eyes or make your own using white circles of paper and a black pen. Draw on a cheerful smile!

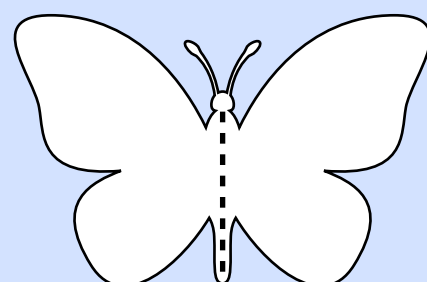

Fold a sheet of paper in half

Draw half a butterfly

Cut out

Unfold
