

Science and French Medium Term Planning Year 6 Summer 2 2022

	Week 1	Week 2	Week 3	Week4	Week 5	Week 6	Week 7
Science Properties of materials	To know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution.	That some changes of state and dissolving and mixing processes can be reversed through filtering, sieving and evaporating.	Explain that some changes form new materials, and that these changes are not usually reversible.	Year 6 Residential	Explain that some changes, caused by heating or cooling form new materials, and that these changes are often not reversible.	Explain that changes caused by burning form new materials, and that these changes are not reversible.	To compare and group together everyday materials on the basis of their properties. To give reasons based on evidence from comparative and fair tests, for the particular uses of everyday materials.
French The Future	To know how to use future tense to describe actions	To understand verb phrases in the infinitive form of the verb.	To understand verb phrases in the infinitive form of the verb using the present tense version of the verb.		To understand adjectives change their suffix when written in their masculine and feminine form.	Learning the adjectives from this lesson will enable pupils to give more information when somebody asks them how they are.	For pupils to recognise this story is written in the present tense, but some of the direct speech is written in the future tense.
