

Coaching

Some areas of Physical Education are very technical to teach. Therefore we bring in specialist coaches to work with as many children as possible to assist with the teaching of Physical Education, based around these four aspects:

1. Acquiring and developing skills.
2. Selecting and applying skills.
3. Evaluating and improving performance.
4. Knowledge and understanding of fitness and health.

We are fortunate that we have been able to develop fantastic partnerships with local clubs and organisations to support us with this, as follows:

- Stratford Town football club
- Stratford athletics club
- Stratford hockey club
- Henley in Arden tennis club
- Worcester Warriors rugby club
- Warwickshire Cricket Board

The input from specialist coaches for children has been inspiring for them. We have made these opportunities available to as many children as possible throughout the academic year.
