

Moderation

At we Bishopton we have a termly internal moderation meeting in which we focus on specific areas of moderation across the school. Agreement marking is undertaken by all class teachers across the school which strengthens teachers' understanding of the different year groups and their targets in writing.

Teachers also attend consortium and county moderation meetings to develop and strengthen their understanding of the requirements in writing for their specific year group. Opportunities such as these also enable teachers to network and consider new ideas and ways of teaching various writing genres.

Two members of staff are trained moderators.
