

VIPERS

Whole class reading is carried out 3 times weekly. The amount of time spent on this will be dependent on year group. Key Stage 2 spends between 20-30 minutes while EYFS and Key Stage 1 have between 10-20 minutes. This is an opportunity for the children to read aloud. To access books which accommodate the whole of the class, it is possible to select from Bug Club and reserve particular books so they are not duplicated for home reading. If classes have whole sets of texts these can also be used.

We have been using the **VIPERS** approach to whole class reading since September 2021. This involves focusing on a specific area of comprehension each term and the children recording work done on this activity in their literacy books.
