Dear Parents,

We are delighted to inform you that we are continuing with 'Time Tables Rock Stars' and adding 'Mathletics' to our school.' These online programmes enable your child to practice and reinforce their mental maths skills in an interactive, fun and engaging way. Mathletics, also provides a platform for pupils to consolidate skills and concepts learnt in school through a variety of quizzes.

Time Tables Rock Stars

Times Tables Rock Stars is a carefully sequenced programme of daily times tables practice. Each week concentrates on a different times table, with a recommended consolidation week for rehearsing the tables that have recently been practised every third week or so.

Mathletics

Mathletics is aligned with the national curriculum for England and builds on the success of the 'White Rose' mastery maths approach. The aim of Mathletics is to build pupil confidence and reinforce the skills and concepts that are being taught in school in a fun and engaging way. Pupils stay motivated to learn and move forward with a variety of rewards and creative adventures, which as a school we celebrate in our weekly 'Awards' assembly. Mathletics gives pupils the encouragement they need to challenge themselves to improve.

Mathletics is different because pupils are empowered to take charge of their own learning, setting up an environment where they can really thrive. Adventures like Multiverse and Rainforest Maths allow students to choose their own learning paths, challenging themselves and discovering new knowledge.

Kind regards,

Mrs Charman
