

Lie low

Good riddance

**Green-eyed
monster**

Night owl

**As dead as a
doornail**

A charmed life

A heart of gold

Kill with kindness

**Wild goose
chase**

Faint hearted

Apple of my eye

**Wear your heart
on your sleeve**

To break the ice

**A foregone
conclusion**

**The truth
will out**

**To wait with
bated breath**

**There's method
in my madness**

bedazzled

In stitches

There's the rub

**The world's
your oyster**

**Make your hair
stand on end**

Seen better days

At a snail's pace

Melt into thin air

**To come full
circle**

A laughing stock

Mum's the word

**Eaten me out of
house and home**

In a pickle
